

## Cover Crop Rotations, Minimum Till and the Benefits of Value Added

Saturday, Jan. 26<sup>th</sup> 11:30am

### *About the Session:*

Learn how to implement cover crop rotations and minimum till to promote soil health, conserve water, and produce a high quality complete feed. Hear how Winddrift Farms near Olathe uses value added crops and soil health practices to vertically integrate an innovative operation. They adhere to the principles of a Just Price economic model.

### *About the Speaker:*

George Rosenbaum is a partner in Winddrift Farms Pork, LLC., near Olathe. Their family farm focuses on locally grown, produced and consumed pork. They adhere to a Just Price economic model that facilitates long-term health and viability for all members of our community.
